### DR. MOTT'S. CHALYBEATE RESTORATIVE

PILLS OF IRON.

An appenent and Stomachie preparation of Thor, purified of Oxygen and Carbon by combustion of Hydrogen. Sanctioned by the highest Medical Authorities, both in Europa and the United States, and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be empared with it. Impurities of the blood, depression of vital energy, pale and otherwise sightly complexions indicate its discessity in almost every conceivable case. Innxolmes in all maladies in which it has been tried, it has proved absolutely curative in each of the following emplaints, viz.

In Debblity, Nervous Affections, Emacintion, Dysensory, Inotherst Consumptions, Serofulous Tubercutosis, Safett heum. Mismonstruation, Whites, Chlorosis,: Lawer Complitation, Chronice Headaches, Rheumatism, Intermittent Fevers, Pimples on the Frace, &c.

In cases of General Debility, whether the result of acute disease or ofthe continued diminution of nervous and muscular energy from chronic complaints, one trial of this restrative has proved successful to an extent which no description our written attestation would render credible. Invalids solong bed ridden as to have become forgotten in their own neighborhoods, have sunddenly reappeared in the bnsy world as if just returned from protracted travel in a distant land.—Sone very signal instances of this kind are attended of paperent marsanus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to all and exercise for which the physician has no mane.

oxides, it is vigorously tonic, without being
excitting and overheating; and gently, regularly aperient, even in the most obstinate
cases of costiveness, without ever being a
gastric putgativo, or inflicting a disagreeable
seneation.

It is this latter property, among others,
which makes it to remarkably effectual and
permanent a remedy for Piles, upon which in
also appears to exert a distinct and specific
action, by dispersing the local tendency
which forms them.

In Dyspepsia, innumerable as are its
causes, it slight box of those Chalybeate

cases, including the attendant Contiveness.

In unchecked Distribute, even when advanced to Dyschurry, confirmed, emaciatnation, and apparently malignant, the effects
nave been equally decisive and astonishing,
In the head pains, loss offices and stength,
debilitating cough, and remutent heotic,
which generally indicate Incapient Consumption, this remedy has allayed the
starnd of mends and physicians, in several
very gratifying and turvesting instances.

In Serrolulous Tuberculous, this medicated from has had far more than the good
effect of the most cantiously balanced preparations of indice, without any of their well
stown liabilities.

It esttention of females cannot be too conand my invited to this remedy and restoratice, in the cases peculiarly affecting them.

In Rhemantism, both chronic and in

decidedly—it has been maraiably well renorted, both as alleviating pain and refuncing the
wellings and stiffuess of the joints and

In Intermittent Fevers, it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably he one of high renown and usefulness.
